Company Overview

RCT is a General trading company in the region, that does various businesses including software systems, E-commerce, and services digitalization for governments & private sectors. We are developing and selling high-quality software systems to other companies.

 RCT strives to build long-term relationships and to provide quality products and services that will exceed the expectations of all our customers.

 Managed Services are the practice of outsourcing day-to-day management responsibilities and functions that are critical to any successful business and organization.

We understand what it takes to put the right technology in place to ensure maximum return on your investments. RCT helps you with a holistic overview.

Enable you to focus on your business by providing practical IT solutions by creating an environment for success. Minimize the risk of data loss, downtime, and security threats and provide redundancy at the same time.

To be the leading-edge technology provider in Africa by creating high-quality software products & services partnering with the most renowned suppliers of IT solutions to fulfill our client's expectations and achieve measurable competitive advantage.

PROJECT DONE

20K+

E-commerce Suuk for Juba delivery service

10K+

PROJECT RUNNING

Services digitalization for governments

PROJECTS

The screenshot shows the Suuk app's main screen. At the top right is the Suuk logo with the tagline "Juba's #1 Market place". Below the logo are "SELECT PAGE" and a menu icon. The central part of the screen features a large banner with the text "JUBA'S #1" and "Anything you want we deliver to every part of Juba!". A "Discover Now" button is visible. Below the banner, there are sections for "Men & Women" with placeholder text "Lorem ipsum dolor sit amet" and a small image of a red polo shirt. Navigation arrows and dots indicate more content is available.

Digitalizing Africa

Go Digital with us

www.RegionalCorporateTechnologies.com

Understanding Your Needs

Not all businesses need identical software development, cybersecurity, or IT needs, and an experienced IT provider understands this. The best IT companies will listen to your specific requirements and tailor to your offerings to match. RCT is one of them

Customer-Focused

No matter how technical or complex the IT query is, as your IT solution provider we focus on you, the customer, with empathy and understanding. our experience with numerous technical issues, whether it's dealing with website downtime or simple patch management, lets us deal with the technical side of things .

Community Values

we value our African Culture. we believe even IT solutions needs to be customised based on community value.

Marketing Strategy

01

Transparency

Being transparent about what is achievable and what is challenging, and not over-promise or under-deliver

02

Cost-Effectiveness

money plays a huge role in managing your business solutions and external partners included so cost-effectiveness is our a major consideration.

03

Available When You Are

Being able to deal with unexpected issues at any time of the day or week.

04

Flexibility

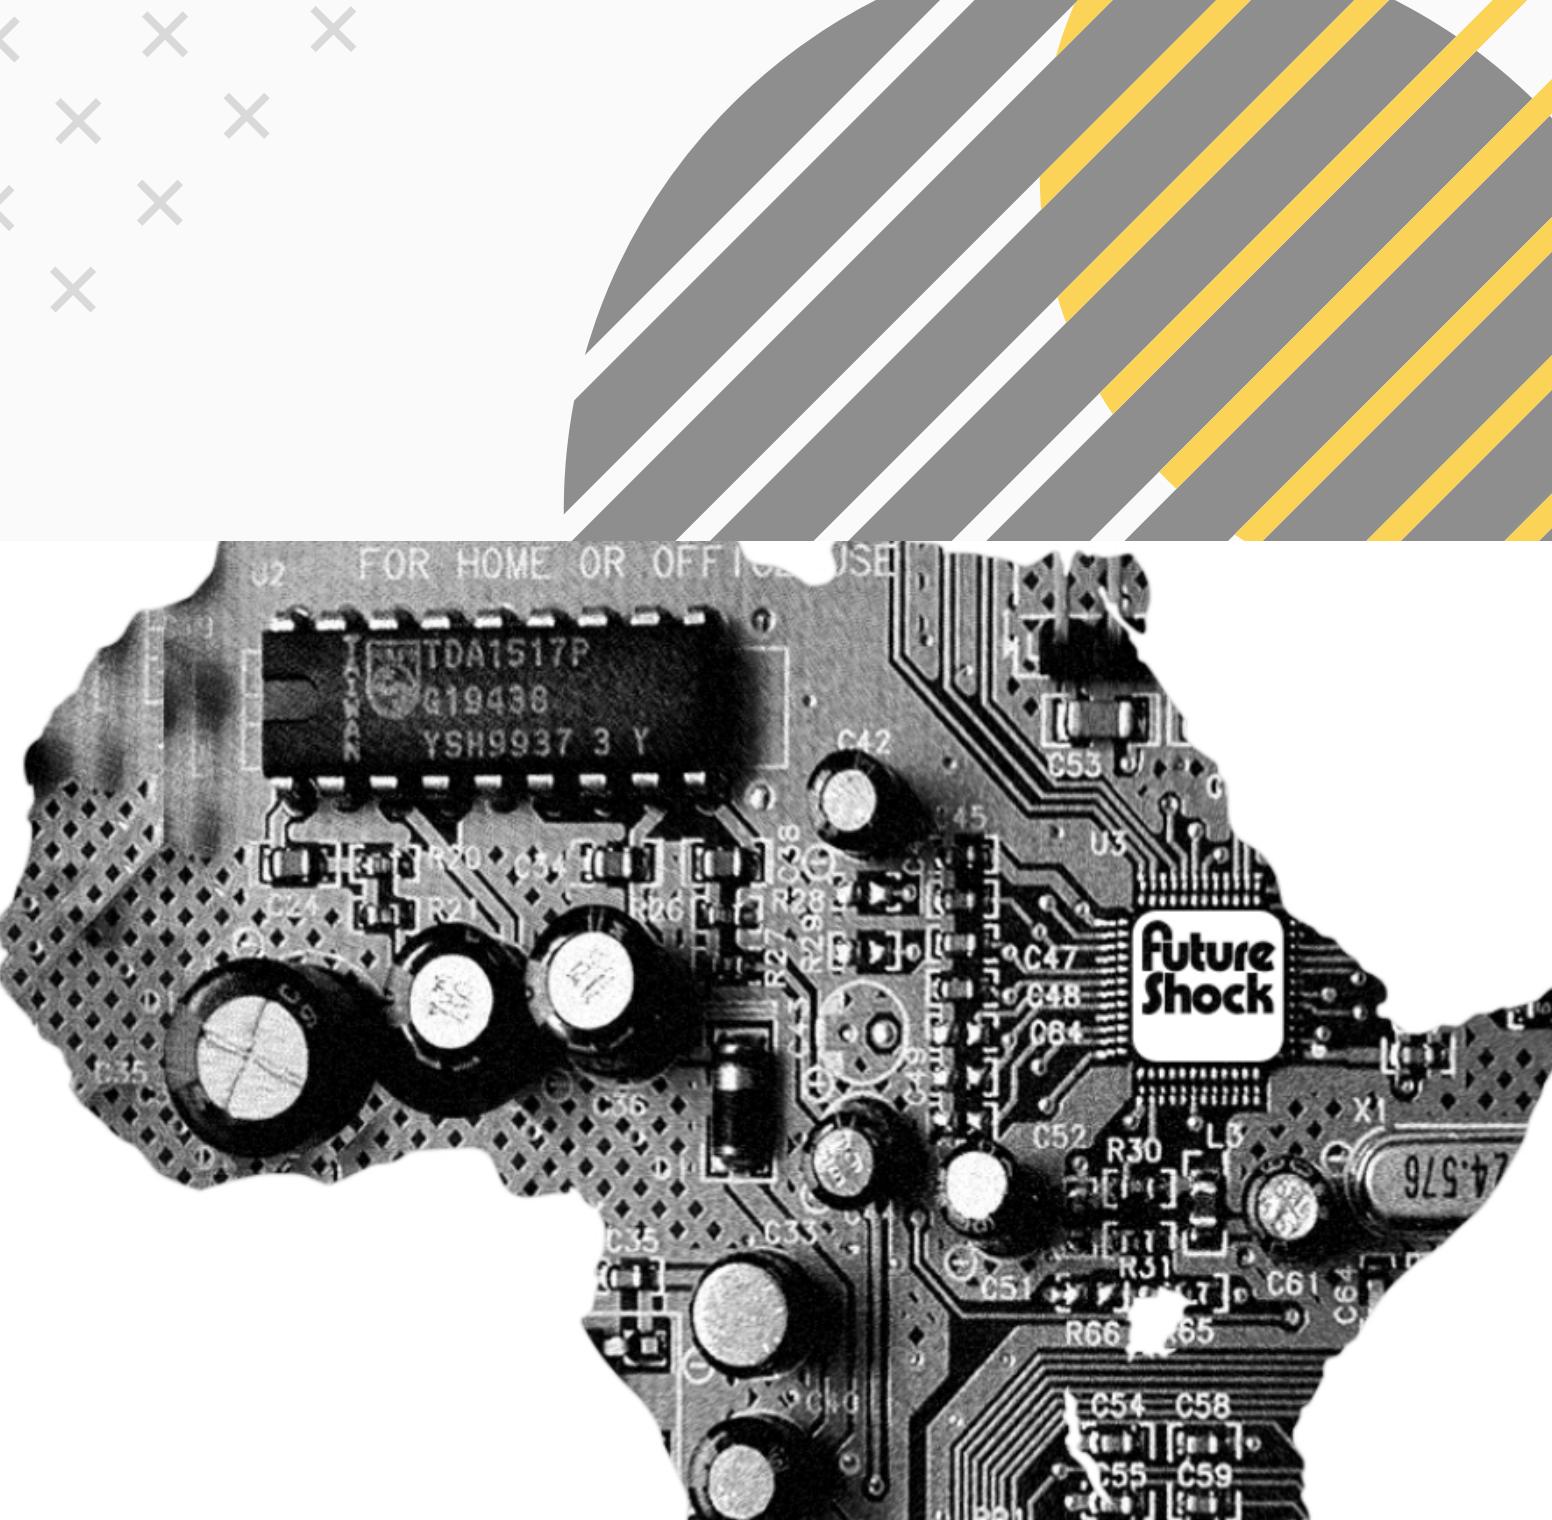

Right at the get-go, you can easily impose your preferences regarding the use and design of your dashboard and reports

Inspiration

In today's technology-driven marketplace demand, it is critical to keep up with the latest innovations and solutions to make the most of your investments and keep your business moving forward.

So whether you are networking with an IT Partner, or have worked with one before with RCT you will find cost-efficient support, guidance, and the inspiration you need to provide your business with a competitive advantage.
